Project Title: Smart Cardiology Document Processing & Decision Support. Modules: 7) Analytics Dashboard 6) Critical Alert System (partial)

1. Work Summary

Reviewed the project requirements and scope for the Module 7 Analytics Dashboard in detail to gain a clear understanding of the implementation goals. This included analyzing the expected deliverables, dashboard components, and key analytics metrics needed for development.

2. Task Breakdown

Sl.No.	Task /Work Description	Start Time	End Time	Status (Completed/In Progress/Pending)
1	Reviewed the project requirements, identified the key KPIs and visualizations needed, and analyzed the overall dashboard expectations to better plan the implementation.	3:30	5:30	In Progress

3. Challenges & Issues Faced

At the initial stage, clarification was needed regarding the expected dashboard structure and the most effective way to present the analytics visually. Additional time was spent understanding how each metric would contribute to the overall dashboard design and functionality.

4. Pending Tasks if any for Current Day & Action Plan for Next Day

Need to prepare the wireframe and layout design for the dashboard sections, finalize the placement of KPI cards, charts, and analytics tables to ensure a clear and effective visual structure.
