

DAILY WORK REPORT

Intern Name: Subrahmanya K R

Department: AI & DS

Internship Domain: AI & DS

Date: 10-04-2026

Team Number: 2

Project Title: Smart Cardiology Document Processing & Decision Support. Modules: 7) Analytics Dashboard 6) Critical Alert System (partial)

1. Work Summary

Designed the initial wireframe and visual layout for the dashboard, outlining the placement of the header, KPI cards, chart sections, and analytics table. The structure was planned to improve usability while maintaining a clean, professional, and intuitive interface.

2. Task Breakdown

Sl.No.	Task /Work Description	Start Time	End Time	Status (Completed/In Progress/Pending)
1.	Created and implemented the foundational layout of the application interface, incorporating the header, sidebar, and main content areas to provide a structured and user-friendly experience.	2:00PM	4:00PM	Completed
2.	Began styling key UI components, including buttons, input fields, and cards, to enhance visual consistency and create a more polished, professional look across the interface.	6:30PM	8:00PM	In Progress

3. Challenges & Issues Faced

Maintaining balanced spacing while keeping the dashboard visually clean and organized was a key challenge. Several layout variations were reviewed and refined before finalizing the most effective structure.

4. Pending Tasks if any for Current Day & Action Plan for Next Day

Need to start implementing the base PyQt dashboard window and setting up the primary layout containers to establish the overall application structure.
