

DAILY WORK REPORT

Intern Name: Subrahmanya K R

Department: AI & DS

Internship Domain: AI & DS

Date: 16-04-2026

Team Number: 2

Project Title: Smart Cardiology Document Processing & Decision Support. Modules: 7) Analytics Dashboard 6) Critical Alert System (partial)

1. Work Summary

I applied a professional dark theme across the dashboard, refining typography, spacing, and colour consistency to create a more polished and visually appealing experience. I also redesigned the layout using modern, card-based containers with rounded corners, subtle borders, and shadow effects, giving the interface a clean, premium feel.

2. Task Breakdown

Sl.No.	Task /Work Description	Start Time	End Time	Status (Completed/In Progress/Pending)
1.	I applied a dark theme across the dashboard and refined the typography, spacing, and color palette to keep everything consistent and easy on the eyes.	10:30AM	1:00PM	Completed
2.	I redesigned the dashboard with a card-based layout, incorporating rounded corners, subtle borders, and shadow effects to create a cleaner, more modern look.	2:30PM	4:00PM	Completed

3. Challenges & Issues Faced

Getting a consistent look across all the widgets took a bit of back and forth with the stylesheets to make everything line up properly. I also spent some time adjusting the shadow effects and card spacing so the layout feels balanced and adapts smoothly across different screen sizes.

4. Pending Tasks if any for Current Day & Action Plan for Next Day

I will implement a header and navigation bar section and refine the overall dashboard hierarchy to make the layout more structured and easier to navigate.
